

Jesus Christ Is The Answer!

Pastor Stephen's Healing Ministry Newsletter

1st Qtr (Mar 2012)

1. A woman was diagnosed with a stone in her kidney and as a result suffered severe pain and discomfort. She became admitted in hospital but the doctors were unable to remove the stone and decided to discharge her and send her back home. Pst Stephen prayed in the hospital with the woman that the stone should disappear. When the woman came back home, she still experienced some pain, however the very next day her pain disappeared. When she went to her GP after that, it was found that the stone had disappeared and there was absolutely no sign of it whatsoever. The Lord Jesus Christ healed her!!!
2. A 12 year old boy from New Zealand was covered in rashes all over his body, a similar kind to eczema, and had unstoppable itching which caused scratches and bleeding. He had this issue for many years. The boy's mother decided to call Pst Stephen for a prayer over the phone. Pst suggested to connect via Skype, which they did. Pst Stephen then prayed for the boy and identified that he and the family had witchcraft placed upon them. Immediately Pst Stephen casted out all the evil spirits and the boy was healed. The boy's rashes disappeared and so did the marks from scratching and bleeding. His skin became restored. Pst Stephen then ministered to the whole family. Praise the Lord!!!
3. A woman had been suffering with stomach ulcers and severe stomach pain for 30 years. As a result, she was unable to eat any hot or spicy food and was only advised to eat light food only by the doctors. Even though she was on a light diet, every time she would eat she would get stomach ulcers and experience severe pain in the stomach. Her condition did not improve over time and one day she became completely bedridden due to the pain. She was not even able to walk. She decided to call Pst Stephen from her bed and Pst prayed and conducted deliverance for her over the phone. Three days later, the woman began vomiting and after that noticed she had no more pain in her stomach. She was able to eat all foods and had no sign of any stomach ulcer. In addition, she was able to walk again and was no longer bedridden. She was completely healed!!!
4. An elderly woman was admitted in hospital with all sorts of complications. One of the complications was that one of her kidneys had failed. The other was that she experienced a stroke which resulted in paralysis to her left side. Due to the woman's old age, the doctors were unable to do anything for her i.e. if they operate, there were very huge chances that she would not survive through it. The situation was such that she was basically just waiting to die. The woman's daughter attended one of the Avalon healing services and asked Pst Stephen to pray for her mother. After the prayer, the woman's daughter was informed by the doctors that her kidneys had started functioning. The next day, the woman called Pst Stephen and asked for a prayer over the phone for her mother's paralysis. The very next day after this, her mother was able to move her left side and was no longer paralysed. The woman was completely healed. Jesus Christ is beyond doctors and medical science!!!
5. A woman was heavily addicted to drugs and alcohol for many years and her life was a complete mess. She was seeing a man who claimed he could heal her. In fact, this man was passing on many evil spirits on this woman which did not change the woman's condition and made her keep coming back to him, so he could continue making money from her. One day, this woman met Pst Stephen and asked for a prayer. Pst Stephen prayed for her and conducted deliverance for her. After this, the woman became completely free from her addictions and has stopped taking the drugs and alcohol.
